DAY 1: Tortuguero

Tortuguero is perhaps the most famous beach on the Caribbean side of Costa Rica. For wildlife lovers Tortuguero National Park is a must, not only for the nesting turtles but for the intense biodiversity which includes 60 species of frogs, 30 species of freshwater fish, 3 monkey species, over 400 species of birds, caimans and crocodiles as well as the threatened West Indian manatee. Six of the world's eight species of marine turtles nest in Costa Rica and Tortuguero is the most important Caribbean breeding site of the green turtle. SUSTAINABILITY

Being environmentally accountable is a crucial part of our organisation. Chimu is currently striving towards using less paper, taking several initiatives to do so, and tracking our progress along the way. Our goal: A paperless organisation. For this reason, all information given to you will be sent electronically. We encourage those who choose to travel with us to support our aspirations and actions and ask that you reconsider printing out documentation. To view these documents, you can download them to your iPad or portable computer before and during your trip.

Chimu is passionate and dedicated to sustainability measures and understands the crucial part sustainability plays within the tourism industry.

COSTA RICA - TORTUGUERO ESCAPE

We use local guides and office staff to both maximise local employment opportunities and minimise carbon footprint. Local guides also ensure you benefit from the intimate knowledge, passion, and culture of the country you're visiting. Our guides are all highly qualified (most with university degrees) or equipped with many years of experience and are paid above the standard wage. Whether it be our knowledgeable local guides, locally produced meals, or the transport on tour, we do not use imported goods when local products are available. We aim to minimise our impact on the environment and give as much back as possible to the communities we work in.

While visiting the many national parks, heritage sites, museums, and landmarks, our travellers are encouraged to explore whilst remaining culturally aware and sensitive. We further encourage you to buy appropriate souvenirs and discourage the buying of anything wrongfully made or taken from the environment i.e., shells and endangered species products. Information on how you can be environmentally conscious, and travel responsibly will be made available in our Travellers Guides and provided during your travels by guides and staff.
