

AKADEMIK SERGEY VAVILOV

Designed for polar research, the Akademik Sergey Vavilov is modern, comfortable, safe and ice-strengthened. There are public spaces on board the ships ideally suited for each and every need. A separate bar and lounge, as well as a library, provide ideal places to sit and relax or catch up on some reading. The vessel transit open water crossings with ease due to their speed and integrated internal ballast system, resulting in a tremendous reduction from severe rolling in heavy seas. As a result, it is the most stable vessel travelling to Antarctica. The spacious outer decks provide 360 degree views of the stunning landscapes.

Technical Information

- Built:** Finland in 1988
- Breadth:** 18.2m (60ft.)
- Length:** 117m (384ft.)
- Max Draft:** 6m (20ft.)
- Gross Tonnage:** 6230 GRT

- Expedition wet weather gear

Safety Features

Ice strengthened hull and two fully enclosed lifeboats. Moreover with safety in mind there is a well equipped medical clinic with an experienced wilderness doctor. The ships carry the most extensive inventory of safety equipment on all excursions and require leaders to undergo vigorous safety training programs.

Why Choose this Ship?

"With a cold war history and stories of a different world, this ship is one for the ages. I personally love the true expedition feel of this vessel, the scientific rooms, cranes and winches on the deck really make you feel like you are on a research mission!. We love the cosy bar, and Sergey makes a mean cocktail! Whilst cabins and amenities are not quite the same as some of the custom build expedition cruise ships – The Akademik is a ship that will please the true adventure seeker looking for that real, authentic Antarctic "Expedition."

– Chad Carey, Co-Founder of Chimu Adventures

CABINS

Main Deck Triple

- Located on Deck 3
- 1 upper & 1 lower berth
- 1 lower berth/sofa
- Writing desk
- Chair
- Storage
- Shared washroom
- 2 portholes with option to open one
