DURATION

8 Days

LOCATIONS

Arctic, Spitsbergen

INTRODUCTION

Spitsbergen is the largest and only permanently populated island of the Svalbard archipelago of northern Norway and offers some of the finest scenery and wildlife experiences in the world. Start your North Spitsbergen cruise with a trek around historic Longyearbyen, then join our expedition to the north of the island to take in the fantastically beautiful landscapes, the thousands of seabirds, and of course the star of the show, the polar bear. Spitsbergen's rugged mountains and rolling tundra offer plenty of opportunities for hiking and snowshoeing and is by far the largest wilderness area of Europe.

ITINERARY

THE ARCTIC - NORTH SPITSBERGEN | ORTELIUS

DAY 1: Embarkation and departure from Longyerbyen

We arrive in Longyearbyen, the administrative capital of the Spitsbergen archipelago of which West Spitsbergen is the largest island. Before embarking there is an opportunity to stroll around this former mining town, whose parish church and Polar Museum are well worth visiting. In the surrounding area of Longyearbyen, more than 100 species of plants have been recorded. In the early evening the ship will sail out of Isfjorden, where in the mouth of the fjord we may see our first Minke Whale.

DAY 2: We sail to Raudfjord

We sail to Raudfjord on the north coast of West Spitsbergen, a beautiful fjord dominated by spectacular glaciers and favoured by Ringed and Bearded Seal. The cliffs and shoreline of the fjord also support thriving seabird colonies and a surprisingly rich vegetation, which flourishes in sheltered spots. Polar bear are often seen here.

DAY 3: Cruising near of the impressive Monaco Glacier

Depending on the weather we may now sail into Liefdefjorden, cruising near the 5km long face of the impressive Monaco Glacier. The waters of the glacier front are a favorite feeding spot for thousands of Kittiwake. As well, Polar Bear have been seen on the glacier, providing wonderful opportunities for photography.

DAY 4: Sail into Hinlopen Strait, home to Bearded Seal

Today we will sail into Hinlopen Strait, home to Bearded Seal, Ringed Seal, Polar Bear, and Ivory Gull. At the entrance there is the possibility to see Blue Whale. We'll navigate the ice floes of Lomfjordshalvøya in our zodiacs and explore the bird cliffs of Alkefjellet with thousands of Brünnich's Guillemot. On the east side of Hinlopen Strait, we'll attempt a landing at Palanderbukta on Nordaustlandet, home to reindeer, Pink-footed Goose, breeding Ivory Gull, and Walrus.

DAY 5: At Seven Islands north of Nordaustlandet

We will try reach our northernmost point at Phippsøya, in the Seven Islands north of Nordaustlandet. Here we will be at 81 degrees north, just 540 miles from the geographic North Pole. Polar Bear inhabit this region, along with Ivory Gull. The ship may sit for several hours in the pack ice, before turning west again.

DAY 6: We will keep watch for the Polar Bear

Retracing our route westwards, our route takes us through and along the pack ice, keeping watch for Polar Bear and the elusive Greenland Whale (Bowhead). About 40 nautical miles west of Spitsbergen we sail along the edge of the continental shelf, where Fin Whale forage in summer in the upwelling's along the Spitsbergen banks. At the mouth of the Kongsfjorden we have also good chances to see Minke Whale.

DAY 7: Sail into St. Johns Fjord or south to Isfjorden

In Forlandsundet at Sarstangen is a haul out place for Walrus. Alternatively we sail into St. Johns Fjord or south to the mouth of Isfjorden and land at Alkhornet. Seabirds nest on its cliffs and Arctic Fox search the cliff base for fallen eggs and chicks, while Spitsbergen Reindeer graze the relatively luxuriant vegetation. At nighttime we arrive in Longyearbyen.

DAY 8: The last day of our voyage

Every adventure, no matter how grand, must eventually come to an end. You disembark in Longyearbyen, taking home memories that will accompany you wherever your next adventure lies.

SUSTAINABILITY

Chimu Adventures undertakes a number of sustainability measures within its operations including:

- 1) Only using local guides and office staff to both maximise local employment opportunities and minimise carbon footprints. Local guides also ensure you benefit from the intimate knowledge, passion and culture of the country you’re visiting.
- 2) Where possible, using locally owned and operated boutique hotels to maximise the return to the local community.
- 3) Chimu’s “Pass it on” programme has provided funding to hundreds of local community projects in Latin America. Our aim is to empower local communities, helping them to develop their own infrastructure for the future. Since 2006, we have been working with Kiva (a well-known Non-Governmental Organisation), providing hundreds of loans to local businesses all over South America.

- 4) In our pre tour information we provide a range of tips and advice on how to minimise your impact on both local environments and communities.
- 5) Chimu Adventures’ offices also take a number of sustainability measures including carbon offsets for company vehicles and most staff travel. Chimu Adventure’s internal processes are also structures to create a paperless office and to reduce waste. There are also internal programmes to help staff minimise their carbon footprint such as our staff bike purchase assistance plan which encourages office staff to commute to work via bicycle. Currently almost half of our office based staff commute to work via bicycle.
