### DAY 1: Arrival in Bogota

Colombia’s capital Bogotá is a vibrant and cosmopolitan city located in central Colombia on a vast plain 2,600m above sea level, cradled by the Andean mountains. The “Old City” of La Candelaria is the historic cultural centre of the city. Its cobbled streets are lined with colonial buildings housing museums, libraries, restaurants, hotels and bars set amongst convents, churches and homes that date back 300 years. Bogotá's most famous museum is the Gold Museum with over 55,000 pieces of gold, bone, ceramic and textiles from the Pre-Hispanic cultures such as the Tayrona, San Agustin, Chocó, Quimbaya, Muisca and Tierradentro.

### DAY 2: Half Day Tour Bogotá (4 hours) Private Guide

After breakfast, half day visit to the historic centre known as La Candelaria. This antiquated barrio is of great architectural and cultural heritage and is made up of old “stately homes” or large Spanish colonial buildings with iron windows, thick and sturdy wooden doors, balconies and internal patios with beautiful yet hidden gardens. Visit the Plaza de Bolivar, where a statue of the great liberator Simon Bolivar is located. This Plaza, originally called the Plaza Mayor, was used for civil and military purposes, as a marketplace, a bullring and a gallows. The Cathedral, on the eastern side of the plaza, is constructed on the remains of the first church built in Bogotá in 1539 and houses an important collection of religious artefacts such as textiles and artwork that has built over four centuries. The Capitol, built between 1847 and 1926, shows its renaissance and neoclassical influences with its carved stonework and tall columns and, it is the first republican piece of civil architecture. Around the Plaza de Bolivar are the Palacio de Justicia, the Mayor of Bogotá’s offices called the Edificio Liévano, the oldest school in the county called San Bartolome and the Casa de los Comuneros who participated towards the end of the XVII Century in some of the first movements towards independence from Spain and the formation of the Republic. The visit continues with the Museo Botero, a colonial house filled with works of art done by and donated by Fernando Botero in addition to artwork from his own personal collection that includes pieces by Picasso, Renoir, Dalí Matisse, Monet and Giacometti. Next is the Museo del Oro which has a permanent exhibition of some 32,000 pieces of gold, 20,000 stones, ceramics and textiles all precious to the Quimbaya, Calima, Tayrona, Sinu, Muisca, Tolima, Tumaco and Magdalena cultures. The Museo del Oro is considered as one of the most important museums of its type internationally and it has been functioning since 1939. In 2007 it underwent a complete overhaul to make this an interactive museum that would awake senses to the objects on display. Free afternoon for individual activities (we recommend visiting the city’s various museums).

### DAY 3: Bogotá - Zipaquirá - Villa de Leyva

After breakfast, departure from Bogotá, north towards Zipaquirá. Travelling through the Sabana de Bogotá you pass scenery full of greenhouses used for the cultivation of carnations and roses. Flower production is an important industry for the hundreds of horticulturalists that live in this region. After a journey of roughly 1.15 hours, reach the impressive Salt Cathedral, a true feat of engineering. The name Zipaquirá refers to Zipa, the leader of the Muisca tribe and the overlord of these rich salt mines. The trip will begin in a tunnel that passes the fourteen Stations of the Cross and continues on to a dome. This dome is lit in such a way that it allows one to contemplate the universe and the relationship between man and nature. Later, reach an enormous cross carved into the rock and finally the three naves of the Cathedral that represent the birth, life and death of Christ. In the central nave is the main altar, above which is a cross measuring 16m in height and 10m in breadth, made by the Colombian artist Carlos Enrique Rodriguez, the largest cross made from salt in the world. Next visit the mine where there is an excellent auditorium that can seat two hundred people and host film screenings and more diverse events such as fashion shows. The trip ends at a mirror of water where you will experience the amazing visual effects of water on carved saline rock. Continue on a 2 hour trip to Villa de Leyva in the afternoon. Arrival and hotel check-in. Villa de Leyva, one of the area's most beautiful towns, was founded in 1572 by Hernàn Suárez de Villalobos who named it after Andrès Días Venero de Leyva, the first president of Nueva Granada. In colonial times, Villa de Leyva played a central role and the Viceroy and his entourage spent much time here. Today, the city is a well-preserved colonial jewel with an enormous plaza of 14,000 sq. metres surrounded by Spanish style houses, small alleys, cobblestone streets and the XVII century parochial church. Visit Museo El Fósil, founded in 1977 and located 5.5 km away from Villa de Leyva. The museum was built exactly where a kronosaurus was found, a marine reptile more than 120 million years old and 20m in length. Return to the hotel and overnight stay.
