DEPARTURE

30/08/2022, 28/08/2023

DURATION

17 Days

LOCATIONS

Canadian Arctic, Greenland

CANADIAN ARCTIC - NORTHWEST PASSAGE: EPIC HIGH ARCTIC | ULTRAMARINE

DAY 2: Fly to Resolute

This morning, board your charter flight to Resolute. Upon arrival, you'll have a chance to walk around this small arctic town before enjoying your first of many Zodiac cruises as you're transferred to your ship.

DAY 3: Exploring Canada's High Arctic - Day 3 to 6

Named after explorer Frederick William Beechey, of the Royal Navy, Beechey Island is a Canadian National Historic Site. It's an important stop on our voyage, as this is the final resting place of three members of Sir John Franklin's ill-fated 1845-46 expedition to find the Northwest Passage.

DAY 7: Exploring Smith Sound - Day 7 & 8

Before saying goodbye to Canada, we'll try to cruise as far north as possible, exploring both sides of Smith Sound, the uninhabited passage between Ellesmere Island and Greenland.

DAY 9: Qaanaaq, Greenland

Your first stop in Greenland is Qaanaaq, formerly known as Thule, one of the northernmost towns in the world (there's a reason ancient philosophers called it Ultima Thule, or "edge of known territory"). Here, local Inuit share their culture and traditions, and the museum sheds more light on what it's like living near the top of the world.

DAY 10: At Sea

As we sail south along the west coast of Greenland, presentations by our on-board experts will prepare you for the adventures that lie ahead.

DAY 11: Exploring West Greenland - Day 11 to 15

With spectacular glaciers, soaring fjords and vibrant communities, the west coast of Greenland will leave you breathless. Nuussuaq (formerly known as Kraulshavn) is the only mainland community in the Upernavik Archipelago. Founded in 1923 as a trading station, it's one of the most traditional hunting and fishing villages in Greenland. It's not surprising that the red-hued, heart-shaped mountain that rises up behind Uummannaq gave the traditional community its name (Uummannaq means "heart-like" in Greenlandic). As your ship approaches the shore, you'll want to be on deck to take in the incredible view of the twin peaks towering over the vibrantly painted wooden houses dotting the rocky terrain below. The settlement was established as a Danish colony in 1758 on the mainland, but it relocated five years later because seal hunting was more plentiful here. In the nearby archaeological site of Qilaqitsoq (also known as Qilakitsoq), you'll visit the ruins of an ancient settlement, where the remains of eight fully dressed mummies were discovered under a rock outcrop in 1972 by a pair of hunters. The famous Greenlandic mummies, which date back to 1475 A.D., are on view at the Greenland National Museum in Nuuk. Cruising farther south rewards with spectacular views of Eqip Sermia. The jagged, blue-tinged glacier soaring out of the crystal-clear water is one of the most beautiful sights in Greenland, and we hope to Zodiac cruise along its massive front from a safe distance. We may also go ashore to explore nearby. Just south of Ilulissat, which means "iceberg" in Greenlandic, is the impressive Ilulissat Icefjord. The UNESCO World Heritage Site is home to Sermeq Kujalleq, the most productive glacier in the northern hemisphere. As we Zodiac cruise at the mouth of the fjord, you may be lucky to witness the wonders of calving ice (listen to the loud roars as the ice breaks off). Founded in 1741, the traditional town, which boasts more sled dogs than people, is famous in its own right: it was the birthplace of explorer Knud Rasmussen, the first to traverse the Northwest Passage by dogsled, in the early 1920s. Hikes here lead out to stunning views of the young icebergs as they float out the fjord to Disko Bay. In Sisimiut, you'll be treated to a traditional kayaking demonstration. The kayak (an Inuit word that the English borrowed) is Greenland's national symbol and can be traced back to the country's first immigrants, who used vessels that resemble the narrow one- or two-person boats. The town has several 18th-century colonial buildings, including the oldest surviving church in Greenland, so take time to wander through the historic area. You'll also have a chance to hike amongst the area's surrounding mountains. Situated in a scenic hollow on a small island with no freshwater, the colorful community of Itilleq, which has about 130 inhabitants, is surrounded by sea, mountains and fjords. The final excursion of your Arctic adventure may be a hike around Itilleq Fjord.

SUSTAINABILITY

Chimu Adventures undertakes a number of sustainability measures within its operations including:

- 1) Only using local guides and office staff to both maximise local employment opportunities and minimise carbon footprints. Local guides also ensure you benefit from the intimate knowledge, passion and culture of the country you're visiting.
- 2) Where possible, using locally owned and operated boutique hotels to maximise the return to the local community.
- 3) Chimu's "Pass it on" programme has provided funding to hundreds of local community projects in Latin America. Our aim is to empower local communities, helping them to develop their own infrastructure for the future. Since 2006, we have been working with Kiva (a well-known Non-Governmental Organisation), providing hundreds of loans to local businesses all over South America.
- 4) In our pre tour information we provide a range of tips and advice on how to minimise your impact on both local environments and communities.
- 5) Chimu Adventures' offices also take a number of sustainability measures including carbon offsets for company vehicles and most staff travel. Chimu Adventure's internal processes are also structured to create a paperless office and to reduce waste. There are also internal programmes to help staff minimise their carbon footprint such as our staff bike purchase assistance plan which encourages office staff to commute to work via bicycle. Currently almost half of our office based staff commute to work via bicycle.
