

## ANTARCTICA - EPIC ANTARCTICA: CIRCLE, FALKLANDS & SOUTH GEORGIA | OCEAN DIAMOND

### INTRODUCTION

Embark on a once-in-a-lifetime adventure on this diverse expedition â you'll experience the spectacular flora and fauna of the Falkland Islands (Islas Malvinas) before immersing yourself in the unique history and exquisite, rare wildlife of South Georgia. Whether you're visiting Antarctic research stations, witnessing a sudden minke whale breach from your Zodiac, sharing a magical moment with king penguins, or celebrating crossing the Antarctic Circle with like-minded travelers and crew, you'll know this experience will live on in you forever.

#### DEPARTURE

19/12/2022, 22/12/2023

#### DURATION

23 Days

#### LOCATIONS

Antarctic Peninsula, Falkland Islands, South Georgia, Antarctic Circle

## ANTARCTICA - EPIC ANTARCTICA: CIRCLE, FALKLANDS & SOUTH GEORGIA | OCEAN DIAMOND

### DAY 1: Arrive in Ushuaia, Argentina

Your gateway for this expedition is Ushuaia, Argentina. Nestled within the Tierra del Fuego archipelago, Ushuaia has a small-town feel yet boasts many shops, museums, cafés and restaurants that you can enjoy before your voyage. If you're feeling adventurous, the nearby national park and Martial Glacier offer plenty of outdoor activities, such as hiking.

### DAY 2: Embarkation Day

As you embark, the anticipation grows. Trade your land legs for sea legs, meet and greet your fellow travelers and get acquainted with your ship. Since every Antarctic adventure presents new opportunities and experiences, embarkation day is just as exciting for your Expedition Team as it is for you. On board to ensure your comfort and safety, your team will also help make your wildlife dreams come true.

### DAY 3: At Sea

Your days at sea are filled with presentations and lectures led by your Expedition Team, who will prepare you for the wildlife that will greet you upon your arrival. In between presentations, spend time chatting with your shipmates over a drink at the bar, or enjoy the fresh air and views on the outer decks.

## ANTARCTICA - EPIC ANTARCTICA: CIRCLE, FALKLANDS & SOUTH GEORGIA | OCEAN DIAMOND

### DAY 4: Falkland Islands (Islas Malvinas) - Day 4 & 5

Upon your arrival in the Falklands (Malvinas), your camera will get its first real workout capturing the abundant wildlife and rugged feel of this sub-Antarctic region. The archipelago contains two main islands, East Falkland and West Falkland, which you will explore during daily Zodiac excursions and landings. Stanley, also known as Port Stanley, is often a favored landing site, as the town offers a unique British outpost feel, complete with eclectic charm. You'll be free to explore, grab a pint at the local pub or visit numerous churches and museums. The Archipelago is rich in wildlife, especially birds, and home to Magellanic, gentoo and southern rockhopper penguins. If you're lucky, you may even spot king penguins here as well! You can expect to see black-browed albatross, plus two endemic bird species—the flightless Falkland steamer duck and possibly the elusive Cobb's wren. Your team of lecturers and specialists will be sure to educate you on the local flora and fauna, making the most out of your time in the Falklands.

### DAY 6: At Sea - Day 6 & 7

Sailing southeast to South Georgia, you'll officially enter Antarctic waters once you cross the Antarctic Convergence, an invisible biological boundary encircling the continent. This meeting of oceans, where the cold Antarctic waters mix and mingle with the warmer waters of the Indian, Pacific and Atlantic Oceans, helps create the abundance of krill that attracts whales and seals to this part of the world. Your Expedition Team will notify you when you cross this invisible yet important line, and also look out for the seabirds and marine life that frequent the area.

## ANTARCTICA - EPIC ANTARCTICA: CIRCLE, FALKLANDS & SOUTH GEORGIA | OCEAN DIAMOND

### DAY 8: South Georgia - Day 8 to 11

This remote, mountainous island was a popular stop for many historic Antarctic expeditions and was once a haven for hunting whales and seals. Today, island wildlife populations are rebounding, but you'll still see remnants of old whaling stations and other abandoned outposts. One significant and historic site is the grave of the great explorer Sir Ernest Shackleton. You can visit his grave at the settlement of Grytviken, which is also home to an old whaling station, plus a museum, gift shop, church and small research station. Although South Georgia's history is an important attraction to the island, it is the tremendous abundance of wildlife that you and your shipmates will surely find most captivating. Each landing you make on South Georgia, often referred to as the Galapagos of the Poles, will open your eyes to the wondrous lives of new, enthralling creatures. One day you may see rookeries with hundreds of thousands of pairs of king penguins waddling on a beach, and the next, you may visit another beach blanketed with thousands of fur or elephant seals. The grasses, mountains and beaches of South Georgia all play an important role in the breeding and survival of different species on the island. This fragile and interwoven relationship is something your Expedition Team will explain to you during your time here.

### DAY 12: At Sea - Day 12 & 13

Say goodbye to the king penguins, as your next destination is Antarctica! Your days at sea are filled with presentations, lectures and workshops led by your Expedition Team, who will prepare you for the wildlife that will greet you upon your arrival.

## ANTARCTICA - EPIC ANTARCTICA: CIRCLE, FALKLANDS & SOUTH GEORGIA | OCEAN DIAMOND

### DAY 14: South Shetlands & Antarctica - Day 14 to 16

The experience is hard to put into words, but the most common reaction upon reaching the White Continent is a sense of reverence and awe. You will discover that Antarctica is a land of extremes: at one moment you'll be overcome with a feeling of complete silence and solitude; the next, you'll be laughing at the comical antics of a curious penguin. Zodiac cruising, visits to historical sites and, of course, communing with seals and penguins are sure to keep you smiling every day. Perhaps you'll catch sight of the fearless penguin eater, the leopard seal, or maybe you'll come eye to eye with a Antarctic minke whale while you are cruising in a Zodiac. Each day and each excursion will present a new collection of creatures to delight you and keep your camera busy. If you find yourself wanting more, treat yourself to an optional kayaking adventure (reserve in advance when booking your trip) or a plunge into Antarctic waters!

### DAY 17: Antarctic Circle - Day 17 & 18

Crossing the Antarctic Circle is an impressive achievement, as few expeditions reach so far south. If conditions allow us to cross this famed line at 66°33' S, we'll toast the first explorers who ventured here, and you can raise a glass and take pride in knowing you've made it to a part of the world visited by very few people. This is raw Antarctica, home of the midnight sun and fantastic iceberg sightings.

### DAY 19: Northbound Along the Peninsula - Day 19 & 20

If you haven't had your fill of Antarctic wildlife and icebergs by now, you'll surely be satisfied by the time you return to the Drake Passage. You will continue to make excursions by Zodiac as you travel north along the western Antarctic Peninsula. Your Expedition Team will always be on the lookout for species of seabirds, seals and whales that may have eluded you on your journey south.

### DAY 21: Crossing the Drake Passage - Day 21 & 22

After more than three weeks of unique wildlife encounters and remarkable landscapes, your journey home begins. Crossing the Drake is your unofficial rite of passage, putting a final stamp of approval on your Antarctic adventure.

### DAY 23: Disembarkation in Ushuaia

After breakfast aboard the ship, it is time to part ways and say goodbye to your Expedition Team. Airport transfers will be provided for those departing on the first homeward flights. Other guests will be transferred to town.

## INCLUSIONS & DETAILS

#### Accommodation

Standard

#### Inclusions

All on-board accommodation  
 All meals throughout voyage  
 One night Pre-voyage night in Ushuaia with breakfast  
 All shore landings and excursions by Zodiac  
 Leadership guides and lectures by expedition team  
 Photographic journal on DVD, documenting the voyage  
 Complimentary rubber boots during voyage  
 Comprehensive Pre-departure materials  
 Miscellaneous service taxes and port charges throughout the program  
 All luggage handling on-board ship  
 Group transfer upon disembarkation in Ushuaia to airport

**Exclusions**  
 Any airfare unless otherwise specified in itinerary  
 Government arrival/departure taxes  
 Any meals ashore (unless specified)  
 Excess baggage charges  
 Personal expenses (such as laundry and telecommunications)  
 Gratuities for staff/crew  
 Optional activities not mentioned in itinerary

### SUSTAINABILITY

#### GUIDANCE FOR VISITORS TO THE ANTARCTIC

RECOMMENDATION XVIII-1, ADOPTED AT THE ANTARCTIC TREATY MEETING, KYOTO, 1994

Activities in the Antarctic are governed by the Antarctic Treaty of 1959 and associated agreements, referred to collectively as the Antarctic Treaty System. The Treaty established Antarctica as a zone of peace and science.

In 1991, the Antarctic Treaty Consultative Parties adopted the Protocol on Environmental Protection to the Antarctic Treaty, which designates the Antarctic as a natural reserve. The Protocol sets out environmental principles, procedures and obligations for the comprehensive protection of the Antarctic environment, and its dependent and associated ecosystems. The Consultative Parties have agreed that as far as possible and in accordance with their legal system, the provisions of the Protocol should be applied as appropriate. The Environmental Protocol was ratified in January 1998.

The Environmental Protocol applies to tourism and non-governmental activities, as well as governmental activities in the Antarctic Treaty Area. It is intended to ensure that these activities, do not have adverse impacts on the Antarctic environment, or on its scientific and aesthetic values.

This Guidance for Visitors to the Antarctic is intended to ensure that all visitors are aware of, and are therefore able to comply with, the Treaty and the Protocol. Visitors are, of course, bound by national laws and regulations applicable to activities in the Antarctic.

#### PROTECT ANTARCTIC WILDLIFE

Taking or harmful interference with Antarctic wildlife is prohibited except in accordance with a permit issued by a national authority.

Do not use aircraft, vessels, small boats, or other means of transport in ways that disturb wildlife, either at sea or on land.

Do not feed, touch, or handle birds or seals, or approach or photograph them in ways that cause them to alter their behavior. Special care is needed when animals are breeding or molting.

Do not damage plants, for example by walking, driving, or landing on extensive moss

#### TRIP CODE

## ANTARCTICA - EPIC ANTARCTICA: CIRCLE, FALKLANDS & SOUTH GEORGIA | OCEAN DIAMOND

beds or lichen-covered scree slopes.

Do not use guns or explosives. Keep noise to the minimum to avoid frightening wildlife.

Do not bring non-native plants or animals into the Antarctic, such as live poultry, pet dogs and cats, or house plants.

### RESPECT PROTECTED AREAS

A variety of areas in the Antarctic have been afforded special protection because of their particular ecological, scientific, historic, or other values. Entry into certain areas may be prohibited except in accordance with a permit issued by an appropriate national authority.

Activities in and near designated Historic Sites and Monuments and certain other areas may be subject to special restrictions.

Know the locations of areas that have been afforded special protection and any restrictions regarding entry and activities that can be carried out in and near them.

Observe applicable restrictions.

Do not damage, remove, or destroy Historic Sites or Monuments or any artifacts associated with them.

### RESPECT SCIENTIFIC RESEARCH

Do not interfere with scientific research, facilities or equipment.

Obtain permission before visiting Antarctic science and support facilities; reconfirm arrangements 24-72 hours before arrival; and comply with the rules regarding such visits.

Do not interfere with, or remove, scientific equipment or marker posts, and do not disturb experimental study sites, field camps, or supplies.

### BE SAFE

Be prepared for severe and changeable weather and ensure that your equipment and clothing meet Antarctic standards. Remember that the Antarctic environment is inhospitable, unpredictable, and potentially dangerous.

Know your capabilities and the dangers posed by the Antarctic environment, and act accordingly. Plan activities with safety in mind at all times.

Keep a safe distance from all wildlife, both on land and at sea.

Take note of, and act on, the advice and instructions from your leaders; do not stray from your group.

Do not walk onto glaciers or large snow fields without the proper equipment and experience; there is a real danger of falling into hidden crevasses.

Do not expect a rescue service. Self-sufficiency is increased and risks reduced by sound planning, quality equipment, and trained personnel.

Do not enter emergency refuges (except in emergencies). If you use equipment or food from a refuge, inform the nearest research station or national authority once the emergency is over.

Respect any smoking restrictions, particularly around buildings, and take great care to safeguard against the danger of fire. This is a real hazard in the dry environment of Antarctica.

### KEEP ANTARCTICA PRISTINE

Antarctica remains relatively pristine, the largest wilderness area on Earth. It has not yet been subjected to large-scale human perturbations. Please keep it that way.

Do not dispose of litter or garbage on land. Open burning is prohibited.

Do not disturb or pollute lakes or streams. Any materials discarded at sea must be disposed of properly.

Do not paint or engrave names or graffiti on rocks or buildings.

Do not collect or take away biological or geological specimens or man-made artifacts as a souvenir, including rocks, bones, eggs, fossils, and parts or contents of buildings.

Do not deface or vandalize buildings or emergency refuges, whether occupied, abandoned, or unoccupied.
