

ANTARCTICA - POLAR CIRCLE: DISCOVERY & LEARNING VOYAGE 11 DAY | HONDIUS

INTRODUCTION

Join us on this incredible 11 day voyage to the Antarctic Circle. This polar circle discovery voyage will cruise the waters that are shared by Humpback, Minke and Fin whales alike. Departing from Ushuaia, you will continue along the formidable Drake Passage until you arrive in the pristine sights of the Antarctic Peninsula. The following days will be spent undertaking a number of true expedition activities including hiking, kayaking, diving and of course, wildlife spotting. Surrounded by solitary icebergs and white-capped peaks, this is truly an unforgettable voyage in one of the worlds most remote and unforgettable locations.

ITINERARY

DAY 1: Embarkation in Ushuaia

Your voyage begins where the world drops off. Ushuaia, Argentina, reputed to be the southernmost city on the planet, is located on the far southern tip of South America. Starting in the afternoon, you embark from this small resort town on Tierra del Fuego, nicknamed "The End of the World," and sail the mountain-fringed Beagle Channel for the remainder of the evening.

DAY 2: Drake Passage - Day 2 to 3

Over the next two days on the Drake Passage, you enjoy some of the same experiences encountered by the great polar explorers who first charted these regions: cool salt breezes, rolling seas, maybe even a fin whale spouting up sea spray. After passing the Antarctic Convergence - Antarctica's natural boundary, formed when north-flowing cold waters collide with warmer sub-Antarctic seas - you are in the circum-Antarctic upwelling zone. Not only does the marine life change, the avian life changes too. Wandering albatrosses, grey-headed albatrosses, black-browed albatrosses, light-mantled sooty albatrosses, cape pigeons, southern fulmars, Wilson's storm petrels, blue petrels, and Antarctic petrels are a few of the birds you might see.

DAY 4: Antarctic Summer - Day 4 to 8

Options for Antarctic Peninsula activities are many, and no less great during the late summer. Humpback whales are prolific in this region, gorging themselves on krill before their migration north. The penguin chicks are also fledging, stirring up activity on the beaches while sleek leopard seals lie in wait, poised to attack the less fortunate ones. Sites of your Antarctic adventure include: Livingston Island - Here you find a wide variety of gentoo and chinstrap penguins on Hannah Point, as well as southern giant petrels and elephant seals hauling out onto the beach. Deception Island - Actually a subducted crater, this island opens into the sea and creates a natural harbor for the ship. Hot springs, an abandoned whaling station, and multiple bird species - cape petrels, kelp gulls, brown and south polar skuas, and Antarctic terns - can be seen here. Wilson's storm petrels and black-bellied storm petrels also nest in the ruins of the whaling station in Whalers Bay. Neko Harbour - An epic landscape of mammoth glaciers and endless wind-carved snow, Neko Harbour offers opportunities for a Zodiac cruise and landing that afford the closest views of the surrounding alpine peaks. You might also be able to set foot on the continent here. Detaille Island - You may make a landing at an abandoned British research station here, taking in the island's lofty mountains and imposing glaciers. Melchior Islands - These islands offer a beautiful landscape rich with icebergs. Leopard seals, crabeater seals, and whales are found here, and there are excellent opportunities for kayaking and diving.

DAY 9: Drake Passage - Day 9 to 10

Your return voyage is far from lonely. While crossing the Drake, you're again greeted by the vast array of seabirds remembered from the passage south. But they seem a little more familiar to you now, and you to them.

DAY 11: Disembarkation in Ushuaia

Every adventure, no matter how grand, must eventually come to an end. It's now time to disembark in Ushuaia, but with memories that will accompany you wherever your next adventure lies.
