

INTRODUCTION

On this extended exploration of the Svalbard archipelago, youâ€™ll spend 15 days exploring this magical Arctic region, giving ample time to enjoy, relax, and discover a world of near-endless daylight, where polar bear sightings quicken your pulse, guillemot cries echo from towering cliffs, and beluga whales rise from the sea. With extra time for exploration, we hope to show you some of our favourite places in Svalbard, and perhaps discover some new ones.

Unpredictable conditions are expected in wild and remote places such as Svalbard, and with extra time, we can slow the pace of the voyage, linger longer in quiet bays to enjoy wildlife encounters and return to places that were previously not possible. Each day brings new adventures, from polar bear sightings to kayaking through glistening icy waters.

Explore tundra adorned with wildflowers, keep watch for arctic foxes, and discover historical camps of explorers and hunters. Push through pack ice to find walrus and bearded seals, and delight in the breathtakingly beautiful fjords. We donâ€™t want you to miss out on anything!

DAY 1: Arrive in Longyearbyen

Having made your way to Longyearbyen, you will be met by a representative of Aurora Expeditions and transferred to our group hotel. Upon arrival, you will be provided with Aurora Expeditions cabin tags for your luggage. Please clearly label the tags with your name and ship cabin number. Enjoy free time, and in the evening, dine at your leisure (dinner not included).

DAY 2: Embarkation

This morning, please ensure your cabin luggage is fitted with cabin tags clearly labelled with your name and cabin number. Your luggage will be collected from your hotel and transferred directly to the port for clearance and delivered to your cabin ahead of your arrival on board. Please keep any valuables or personal items with you throughout the day. After a leisurely breakfast, check-out before enjoying the main attractions of Longyearbyen town on a locally guided tour. On the drive to Camp Barentz, located in Advent Valley, your guide will give you an introduction to Longyearbyen's fascinating history. Once at Camp Barentz we enjoy a presentation in the large 'lavvo' - a traditional building common in northern Norway. You will also have the opportunity to meet the friendly huskies and perhaps pick up some souvenirs. A visit to the Svalbard Museum is included back in town before embarking the vessel in the late afternoon. After embarkation, settle into your cabin before attending mandatory safety briefings and enjoy the thrill of departure as we 'throw the lines' and set sail. Sail out of the beautiful Isfjorden, escorted by gliding fulmars and perhaps the occasional puffin. Find a spot in one of the observation areas to watch seabirds, including graceful ivory gulls, kittiwakes and guillemots. This evening, get to know your fellow expeditioners, expedition team and crew at the Captain's Welcome Dinner to celebrate the start of a thrilling adventure. Note: Sometimes, our ship is unable to dock in Longyearbyen port due to space and capacity. In these instances, we use Zodiacs as a shuttle service between ship and port. Please ensure that you keep your wet-weather gear in your hand luggage in case this situation arises. Please ensure your cabin luggage tag is completed, clearly showing your name and cabin number. Our crew will deliver your luggage directly to your cabin.

DAY 3: Svalbard Archipelago

Svalbard offers Arctic wilderness at its best. Our experienced expedition team will use their expertise to tailor our day-to-day itinerary, choosing the best options, based on the prevailing weather, sea-ice conditions and the possibility of encounters with wildlife. Above the Arctic Circle during the boreal summer, the sun does not drop below the horizon until late August, so we enjoy 24 hours of daylight, and more time to explore this breathtaking part of the planet. Svalbard's phenomenal fjords, magnificent mountain ranges and polar desert are rich in fossils, perfectly setting the stage for heroic tales of early exploration. We may encounter walrus hauled-out on sea ice or wallowing on beaches. We may seek out towering cliffs noisy with nesting guillemots and listen to the busy chanting of little auk colonies protected amongst the scree slopes. With more time than on our classic Svalbard voyages we plan to reach further afield, we will attempt to explore the two largest islands in the archipelago; Spitsbergen and Nordauslandet. We may enjoy the delights around Barentsoya and Edgeoya that are located in the Hinlopen Strait, a known polar bear migration route. We plan to visit the remains of old whaling settlements, old pomor sites, and enjoy early morning Zodiac cruises. We will encounter glittering glaciers, keep watch for beluga whales and watch for ivory gulls. Weather and ice permitting we may sail along the most northerly point of the Svalbard archipelago, a favoured spot to a large colony of walruses. We may encounter the mighty polar bear in its element, in the pack ice. Your expedition team is just as keen as you are to find them - we will be on constant watch to spot these magnificent creatures. If you are participating in an optional activity such as kayaking, you will have opportunity to experience the Arctic whenever conditions allow. For those who are enthusiastic to participate in a polar plunge, when conditions are perfect, you will hear the announcement to prepare for an exhilarating dip - a memory to savour for years to come.

DAY 15: Disembark in Longyearbyen

Early morning we cruise back into Longyearbyen for disembarkation. Farewell your crew and expedition team and enjoy some free time before transferring to the airport to continue your journey. Note: We do not recommend booking flights that depart prior to 12.00 pm on the day of disembarkation, as we may experience delays at the conclusion of the voyage.

SUSTAINABILITY

SPITSBERGEN - SVALBARD IN DEPTH | SYLVIA EARLE

Chimu Adventures is passionate and dedicated to sustainability measures and understands the crucial part sustainability plays within the tourism industry.

We use local guides and office staff to both maximise local employment opportunities and minimise carbon footprint. Local guides also ensure you benefit from the intimate knowledge, passion and culture of the country you're visiting. Our guides are all highly qualified (most with university degrees) or equip with many years of experience and are paid above the standard wage. Whether it be our knowledgeable local guides, locally produced meals or the transport on tour, we do not use imported goods when local products are available. We aim to minimise our impact on the environment and give as much back as possible to the communities we work in.

We ensure that we have as little negative impact on the wildlife as possible and minimise disturbances. We also encourage the education and visitation of protection and conservation services, specifically associated with the area. You will also find that we visit many locations and landmarks of which we encourage you to explore yet advise you to remain culturally aware and sensitive. We further encourage you to buy appropriate souvenirs and discourage the buying of anything wrongfully made or taken from the environment i.e. shells and endangered species products. Information on how you can be environmentally conscious, and travel responsibly will be made available in pre-departure information and en-route by guides and staff. Furthermore, in our further efforts of supporting the communities, a percentage of the funds generated from your tour (10%) will go back to our charities and assist us supporting the next generation and the environment they live in.

Being environmentally accountable is a crucial part of our organisation. Chimu is currently striving towards using less paper, taking several initiatives to do so and tracking our progress along the way. Our goal: A paperless organisation. For this reason, all information given to you will be sent electronically. We encourage those who choose to travel with us to support our aspirations and actions and ask that you reconsider printing out documentation. To view these documents, you can download them to your iPad or portable computer before and during your trip.
