## DAY 6: South Shetland Islands

Over time, the volcanic activity of the South Shetland Islands has created a geology unlike any other. Here, you can expect a spectacular display of mountains, glaciers, and wildlife including Chinstrap and Gentoo penguins; and it's not uncommon to share the water's edge with Elephant and Fur seals. Whales are often spotted as well. So, we'll settle into our Zodiacs and spend most of our day exploring. And kayakers, it's time to get your first taste of gliding just inches off the pristine Antarctic water. Whether on land or sea, in zodiac or kayak, be prepared for a fully immersive introduction to this incomparable part of the world.

## DAY 7: Antarctica - Day 7 to 9

Here's our chance to explore any number of picturesque bays and harbors, while maneuvering through iceberg-rich channels and into wildlife-rich waters. We'll likely be joined by numerous species of enchanting penguins, seals, and whales, both in the sea and along the rugged coastlines. And there will be great opportunities to stop at several active scientific bases and historic landing sites during our typical two-a-day outings. A night of camping under the stars is also an unforgettable highlight for those who sign up. Our focus is always on the longest and most adventurous off-ship experience, so be prepared to take in all that Antarctica has to offer.

## DAY 10: Drake Passage - Day 10 & 11

We leave this magical place and make our way north, once again crossing the legendary Drake Passage. We have one last hurrah as we celebrate the conclusion of our expedition with a special slideshow and a final meal together.
