INTRODUCTION

SAVE UP TO 20% on selected cabins & departures*

Renowned for its colossal icebergs, perpetual sea ice, captivating fossils, and its historic significance in Shackleton's Endurance expedition, the Weddell Sea presents unparalleled opportunities for exploration. Join us on an authentic Antarctic expedition as we not only traverse the western Antarctic Peninsula but also endeavor to journey eastward towards the icy confines of the Weddell Sea. Often cloaked in formidable pack ice, this region boasts magnificent tabular icebergs that we eagerly anticipate encountering along our path.

**Save up to 20% on selected departures and cabins. Discounts are on sale until 31 Dec 2024 and subject to availability. Discounts are not combinable with any other promotions except back-to-back voyage or loyalty discounts. Discounts and pricing are subject to change and may be withdrawn or varied at any time. Price based on twin share cabin.*

PLEASE NOTE: Pricing is subject to change and availability at the time of booking. [Contact us](#) for more information.

ITINERARY

ANTARCTICA FLY CRUISE - WILD ANTARCTICA: PUNTA ARENAS TO USHUAIA | SYLVIA EARLE

DAY 1: Arrival in Punta Arenas

Arrive in Punta Arenas, where you will be met by a representative and transferred to our hotel. We ask that you arrive no later than 2:00pm so that you may attend our important briefing this evening. Please visit the hospitality desk in the lobby between 2:00pm - 6:00pm to collect your luggage cabin tags. Our team will confirm details regarding your embarkation day, answer any questions and provide you with information about where to dine or purchase last minute items. Overlooking the Straits of Magellan, the city sits astride one of the world's most historic trade routes. Today, Punta Arenas reflects a great blend of cultural backgrounds, from English sheep ranchers to Portuguese sailors. It remains an utterly fascinating testament to Chile's rich history. Modern day Punta Arenas is home to many popular restaurants, and bars, offering a mix of local and international fare (meals at your own expense today). At 7.00 pm this evening, meet your fellow expeditioners at a voyage briefing where we will reconfirm your transfer times for tomorrow, explain the procedures for your flight to King George Island and outline important IAATO regulations for visitors to Antarctica.

DAY 2: Fly Punta Arenas to King George Island

This morning we will be transferred to Punta Arenas airport for our charter flight to King George Island, Antarctica (weather permitting). The flight will take approximately one hour and forty-five minutes. On arrival into King George Island our expedition team is on hand to greet you and to prepare you for your Zodiac transfer to the vessel. You will have time to settle into your cabin before our important safety briefings. Note: King George Island is located at the northern part of the Antarctic Peninsula in the South Shetland Islands and is one of the most remote places on Earth. A clear sky with perfect visibility is required for safe take-off and landing. A contingency plan will be applied to your itinerary should your flights not proceed today. Your safety is our utmost priority. We apologise in advance for any delays caused due to this unpredictable situation. Please refer to our terms and conditions for a more detailed explanation.

DAY 3: Weddell Sea and Peninsula - Day 3 to 10

It's almost impossible to describe the feeling of arriving in Antarctica. Spotting your first iceberg and taking a deep breath of some of the most fresh, crisp air on earth is an experience that will stay with you forever. Once we arrive, the western side of the Antarctic Peninsula and the South Shetland Islands are ours to explore, and we have a host of choices available to us. Because we are so far south, we will experience approximately 18-24 hours of daylight and the days can be as busy as you wish. Your experienced expedition team, who have made countless journeys to this area, will use their expertise to design your voyage from day to day, choosing the best options based on the prevailing weather, ice conditions and wildlife opportunities. We generally make landings or Zodiac excursions twice a day. You will want to rug up before joining Zodiac cruises along spectacular ice cliffs or among grounded icebergs, keeping watch for whales, seals and porpoising penguins. Zodiacs will also transport you from the ship to land, where you can visit penguin rookeries, discover historic huts and explore some of our favourite spots along the peninsula. While ashore we aim to stretch our legs, wandering along pebbly beaches or perhaps up snow-covered ridgelines to vantage points with mountains towering overhead and ice-speckled oceans below. If you have chosen an optional activity, you will have the option to do that whenever conditions allow, and of course keen polar plungers will have the chance to fully immerse themselves in polar waters - conditions permitting! In addition to Zodiac cruises and shore excursions, we may ship cruise some of the narrow, dramatic straits separating offshore islands from the mainland, or linger in scenic bays to watch whales travelling or feeding. This is a great time to enjoy the observation lounge for uninterrupted views of Antarctica in all its splendour. Keep an ear out for the creak and deep rumble of glaciers as they carve their way from summit to sea. Take a quiet moment to experience the wonder of this incredible white continent. Central to the story of where Sir Ernest Shackleton's ship, the Endurance became trapped in formidable sea ice, the Weddell Sea certainly is high on the list for many polar adventurers. A small set of islands standing off to the east of the Antarctic Peninsula collectively form the Antarctic Sound - the gateway to the Weddell Sea. With a well-deserved reputation as being an iceberg alley where large icebergs try to escape the Weddell Sea through Antarctic Sound, often making navigation difficult. However, the rewards can be great. Fossils are a reminder of a more temperate era - gastropods, large clams, and spiral-shaped ammonites, all turned to stone. We hope to experience memorable wildlife encounters as the Weddell boasts a large Adélie penguin colony just outside of Antarctic Sound, some of which breed on the rocky slopes of a small volcanic island, where a large colony of Antarctic blue-eyed shags jostle for space with nest-building Wilson's storm petrels. On thrilling Zodiac excursions or slicing a path through the maze of sea ice in your kayak, keep watch for chinstrap and gentoo penguins in and out of the water, as well as humpback, minke and orca whales. Your camera is sure to get a solid workout during your time in the Weddell Sea.

ANTARCTICA FLY CRUISE - WILD ANTARCTICA: PUNTA ARENAS TO USHUAIA | SYLVIA EARLE

DAY 11: Drake Passage - Day 11 & 12

Enjoy a final morning landing in the South Shetland Islands before we re-enter the Drake Passage for our return journey to South America. With lectures and film presentations to complete our Antarctic experience, there is still plenty of time to enjoy the magic of the Southern Ocean and the life that calls it home. There is time for reflection and discussion about what we have seen and experienced. We hope you become ambassadors for Antarctica telling your family, friends and colleagues about your journey to this magical place, advocating for its conservation and preservation so that they might one day visit the region to experience what you have been lucky to see and do here. As we approach the tip of South America, our Captain may sail close to legendary Cape Horn, weather and time permitting.

DAY 13: Disembark in Ushuaia

During the early morning, we cruise up the Beagle Channel, before quietly slipping into dock in Ushuaia, where we will be free to disembark around 8.00 am. Farewell your expedition team and fellow passengers as we all continue our onward journeys, hopefully with a newfound sense of the immense power of nature. Upon disembarkation, for those continuing their travels in the region, transportation to the hotel will be arranged exclusively for guests who have booked their accommodations through Aurora or for those staying in downtown areas near the port. Expeditioners departing on flights prior to 12:30 pm will be directly transferred to Ushuaia Airport, those with flights after 12:30 pm will have the opportunity to explore Ushuaia before an afternoon airport transfer, and the transfer procedures and details will be communicated onboard before disembarkation. Note: At the conclusion of the voyage, we do not recommend booking flights departing Ushuaia prior to 12.00 pm on the day of disembarkation in case there are delays. *Please note: Cruise itinerary is subject to change depending on weather conditions, ice conditions and other factors.

SUSTAINABILITY

Chimu Adventures is passionate and dedicated to sustainability measures and understands the crucial part sustainability plays within the tourism industry.

A trip to the Antarctic is a completely different experience and quite unlike any other trip you have probably been on. We use a highly regulated, licensed vessel which is well equipped to operate in this vulnerable ecosystem. We are fully compliant with all rules set down by the IAATO and all activities are governed by the Antarctic Treaty System. We carefully select all ships we work with and choose them for their small size as this creates far less impact on shore landings with wildlife. We view the voyage to the Antarctic as an expedition, not a sightseeing trip. Smaller boats such as ours can navigate narrow waterways and are far less polluting than the larger ships in Antarctic waters. By carrying less passengers, we have far less waste, and all waste is carried back to the home port to allow for environmentally conscious waste management and disposal, unlike some of the larger ships which do not facilitate this. This trip begins in Ushuaia where you will have time to sample local food and shop at local boutiques which we encourage individuals to take part in for experience and in support of the local community. We discourage the buying of souvenirs made from endangered species or wrongfully taken from the environment i.e. shells. Our pre-departure pack provides you with all the information required for your tour, from what to take with you to practical advice about how to minimise your impact on the Antarctic environment. This pack highlights initiatives such as waste reduction, and how to appropriately engage with wildlife and the environment around you.
