

ANTARCTICA - SOUTH POLE & EMPERORS | WHITE DESERT

INTRODUCTION

Join us on this unforgettable and luxurious adventure to Antarctica and the South Pole. This 8-day journey begins with a flight by A340 (or similar) or private jet from Cape Town to Wolf's Fang Runaway, your first point of contact on the surreal and majestic continent. Choose from two camps: Whichaway Oasis - a luxury collection of hi-tech polar domes - you will undertake a number of unique adventures completely tailored to suit your needs and wants, or the newly built Echo Camp, which is inspired by the seminal age of Space exploration.

Whichaway Camp will serve as your launching pad for a range of activities completely tailored to suit your needs for the day - do as little or as much as you want. With only 12 guests, your professional guides will expand your horizons in this wonderful land of discovery. From climbing, hiking, or a range of wellness activities - your days among the frozen waves of ice and captivating mountain ranges are yours to command. This is a truly transformative experience, combining the highest degree of luxury and safety to offer a completely tailored experience and one of the most unique you can undertake in Antarctica.

Echo Camp sits in solitude with space-age designed 'Sky Pods', which almost look like they have been beamed down from Mars. On the inside an 'Art Deco' paradise awaits. The camp accommodates a maximum of 12 guests and allows you to combine the ultimate in luxury with a range of adventure activities on the 7th Continent. You have the option to Abseil into camp and can select from a wide range of included activities such as fat-biking, skiing, ice climbing and camping out in the wilderness.

Bear witness to the incredible natural spectacle of newly hatched Emperor penguin chicks at Atka bay. After a short flight from your camp, you will arrive at the magnificent Atka Bay, home to over 14000 pairs of breeding emperor penguins and their newly hatched chicks. With so few visitors to the region, these incredibly curious creatures are mostly unphased by human contact, often approaching close by - making for fantastic photography opportunities.

ANTARCTICA - SOUTH POLE & EMPERORS | WHITE DESERT

Following this unforgettable natural spectacle you will have the rare opportunity to visit the geographic south pole. The very lowest point of Earth, the South pole is the marvelous encapsulation of a true expedition experience. Marvel at a place where there is no more east, west or south - only north. This is a truly unique experience where few have travelled before. You will travel 7 hours, landing on a polar plateau to refuel and get a real sense of the immense scale of Antarctica. When you land at the South Pole visit Amundsen-Scott South Pole station and see the designated marker of the lowest point on earth, where you can only go North and you can walk around the world in just a few paces!

The rest of your days on the continent will be spent undertaking a number of adventure options - all of which can be as adrenaline filled or as relaxing as you see fit. With only 12 guests on each adventure your guides will ensure the highest degree of safety and flexibility with each activity. Whether its biking, hiking, or simply enjoying the various wellness facilities the days are yours as you see fit.

Dates are based on Whichaway Camp and/or Echo Camp, please contact us for availability. Exclusive use bookings are possible for selected dates. Please contact us for more details.

ITINERARY

DAY 1: Fly from Cape Town to Antarctica

Today we fly over thousands of icebergs on a 5-hour flight across the Southern Ocean to Antarctica. During the flight, we enter the Polar Circle and encounter the continuous daylight of the Antarctic summer. After landing on the ancient blue ice of the runway, you will transfer to the Echo camp and take a gentle hike around this timeless location.

DAY 2: Echo Camp

Settle into the Echo Camp and do as much or as little as you like each day. Activities range from yoga, massages, and gentle treks to exploring the incredible ice waves, summiting a nunatak, ice climbing and even abseiling! On quieter days, you will hear talks from our polar explorer staff about some of the lesser-known history of Antarctica and their world record-breaking expeditions.

ANTARCTICA - SOUTH POLE & EMPERORS | WHITE DESERT

DAY 3: Emperor Penguins of Atka Bay

We fly 2 hours across Antarctica, providing beautiful views of the nearby mountain ranges and coastline, before landing at the emperor penguin colony at Atka Bay. You will be among the very few who have ever witnessed such a spectacle, observing the real-life stars of March of the Penguins. Here you'll see over 14,000 breeding pairs and their newly hatched chicks, a spectacle full of noise and energy that is a favourite with wildlife watchers and photographers. There are so few visitors to this colony that the chicks are unafraid of humans and often waddle close by. Mindful of our responsibility to the Antarctic environment and of IAATO guidelines, we keep at least 25m (80ft) from the penguins while taking in all the sights and sounds of this rare wildlife spectacle, which remains one of the greatest thrills on Earth!

DAY 4: Ice Exploration

We spend the day exploring the ice waves below our camp, delving into the series of ice tunnels that are as surreal as they are beautiful. Later, you will wind your way through the snow and ice to an incredible vantage point where you can take in the panoramic view over the waves that you have just explored.

DAY 5: South Pole Exploration

We leave early in the morning in our aircraft, flying over stunning mountain ranges before landing at 83 Degrees South to refuel. After a walk on the High Polar Plateau we will continue to the South Pole, where you will have plenty of time for photos and a chance to stamp your passport before flying back to 83° South and overnighting in the great wilderness of the Plateau. At the heart the Great White Continent lies the South Pole, one of only two stationary points on this rotating Earth! At exactly 90 degrees of latitude, you can walk around the world in only a few paces and marvel at a place where there is no more east, south or west - the only direction is north! The American Amundsen-Scott research station is the backdrop to this most exceptional place, whose discovery ranks as one of the greatest feats of human The Amundsen-Scott exploration ever known.

DAY 6: Echo Camp

After a night under canvas, you'll enjoy a hearty breakfast before boarding the plane once again for the flight back to Whichaway Oasis. The flight is the perfect chance to appreciate the immense scale of Antarctica, before you return to our camp for a three-course champagne dinner to celebrate your achievement.

DAY 7: Echo Camp Activities

An adventurous hike along a winding cliff face affords guests stunning views over pressure ridges of ice that have been folded over millennia by the ocean. Our world-class mountain guides will lead you on this challenging hike, always ensuring your safety.

DAY 8: Return to Cape Town

The flight out of Antarctica will be the last of your enduring memories of the great White Continent before you dive back into the vibrant energy of Africa. You will be transferred to your hotel where you will have a chance to relax and reflect on your Antarctic adventure! *Please note that activities are weather-dependent, and the schedule may be adjusted based on ice conditions.

SUSTAINABILITY

We appreciate that voyages to the Antarctic to have an impact on this pristine environment. In light of this, all our voyages are double carbon offset. In addition, we strive to eliminate as many single use plastics as possible from our supply chain. In choosing this voyage you are also supporting the fantastic work done by the Antarctic Science Foundation (ASF) and their work in understanding and protecting this unique destination. In addition all voyages support the Mawsons Huts Foundation (MHF). The MHF support the legacy of Sir Douglas Mawson, the legendary Antarctic explorer and scientist. As a member of IAATO we follow strict guidelines appointed by the Antarctic Treaty System to go above and beyond in support of minimizing negative impacts on this pristine landscape. We also encourage clients to look to book pre-and post-accommodation with us, where local businesses will be supported. Our clients also receive restaurant recommendations which support locally owned restaurants.

We carefully select all ships we work with and choose smaller sized vessels to create less

ANTARCTICA - SOUTH POLE & EMPERORS | WHITE DESERT

impact. We use a highly regulated, licensed vessel which is well equipped to operate in the Antarctic’s delicate ecosystem. We view the voyage to the Antarctic as an expedition, not a sightseeing trip. Smaller ships such as ours can navigate narrow waterways and are far less polluting than the larger ships in Antarctic waters. By carrying less passengers, we have far less waste. The waste is carried back to the home port to allow for environmentally conscious waste management and disposal.
