

THE ARCTIC - BAFFIN BAY SECRETS | LE BOREAL

INTRODUCTION

On a remarkable 14-day adventure cruise to Baffin Bay, set sail onboard the Le Boréal. In Kangerlussuaq, you will set out on an incredible tour across the most breathtaking Arctic landscapes.

Your first stop, the west coast of Greenland, will greet you with its magnificent icebergs, vibrant settlements surrounding by mountains, and basalt formations. This is the perfect chance to interact with the community and discover Inuit culture in Greenland.

The Arctic tundra's remote settlements of peat homes in Baffin Bay, where the last bear hunters and narwhal fishers still live according to ancestral customs, can be seen as you travel farther north. Additionally, you'll learn about Savissivik, the largest 'iceberg graveyard,' and witness the relics of old Inuit civilizations.

During the last part of your cruise, you will be able to enjoy really exploring Baffin Bay; you will look for the ice floe and try to spot polar bears. You will head south to reach Evighedsfjorden, which means the 'eternity fjord' in Danish, where the landscapes made up of glaciers, tundra and jagged cliffs will help you end this journey on a high.

THE ARCTIC - BAFFIN BAY SECRETS | LE BOREAL

DAY 1: Paris to Kangerlussuaq

Take the chartered flight from Paris to Kangerlussuaq. Embarkation will be in the afternoon with departure in the early evening. From 1941 to 1992, the town of Kangerlussuaq in Greenland was home to an American military base. Nowadays, thanks to its international airport, it has become a transit point for travellers seeking adventure in the Far North. Located to the north of the Arctic Circle, this town is the starting point of magnificent discoveries surrounded by unspoiled nature. Indeed, just a few dozen kilometres from there it is possible to get close to the Greenland ice sheet, the largest body of ice in the Northern Hemisphere. From Kangerlussuaq, admire also the superb landscapes of tundra in autumnal colours, where Arctic hares, musk oxen, Arctic foxes, reindeer, falcons and eagles live.

DAY 2: Sisimiut

During your cruise, we invite you to discover Sisimiut, founded in 1756 and the second largest town in Greenland. This small town is typical of Greenland, boasting bewitching panoramas: here and there, colourful stilt houses dot the undulating landscape, and the small fishing port stands as the gateway to an icy realm. As for the town centre, it is home to a number of historic buildings, a small church and a museum which retraces the history of the Inuit people, as well as many craft shops. When your ship drops anchor here, you will set out to meet the locals in a typically arctic atmosphere.

DAY 3: Disko Bay

To the east of Baffin Bay, discover Disko Bay, scattered with countless icebergs produced by the Ilulissat Icefjord, a UNESCO World Heritage Site. From your ship, admire the majestic ballet of these ice giants as they slowly drift across the dark waters. This site is a natural marvel of Greenland, and is also renowned as an observation point for the region's many humpback whales. The encounters with wild fauna and stunning landscapes in the heart of this spectacular and fragile nature will be pure moments of wonder for you.

DAY 4: Qeqertarsuaq

On the southern coast of Disko Island, Qeqertarsuaq is one of just two small villages on this island the size of Corsica. Its isolation makes it an observation post popular among naturalists since the beginning of polar exploration and the set-up, in 1906, of the Arctic Centre research facility. During a zodiac cruise you will have the chance to explore the natural wonders of Greenland, meet its wildlife such as the humpback whale and contemplate the basaltic organ landscapes that offer pure moments of wonder for you. In the heart of this spectacular and fragile nature, enjoy the breath-taking views of the grandiose and varied landscapes of Disko Island and Disko Bay.

DAY 5: Eqi Glacier

'The most beautiful place in the Arctic' is how Paul-Émile Victor described Greenland, a land of great icebergs and of towering ice formations calved by the giant glaciers of the polar ice cap. The Eqi Glacier is one of the region's most impressive sights. Here, the silence is broken only by the roaring and cracking of the ice. It is impossible to know if one is shivering from cold or from the sheer thrill of being here... Imagine the vast outline of a glacier, its translucent crystals glowing with an ice-blue fire in the sunlight. Paul-Émile Victor's shelter cannot be overlooked; it was from here that the French Polar Expeditions' anthropological and geographic explorations set off in the 1950s.

DAY 6: Akulleq

In the curve of Uummanaq Bay, opposite a narrow passage between two islands, you will discover the moonscape of the small desert island of Akulleq. The ochre yellow and orange of this mineral site look ablaze under the sunshine of the polar summer. From the island's summit you will be able to contemplate a panoramic view of the bay's magical landscape and its huge icebergs with surprising shapes.

DAY 7: Orpit

To the north-west of Greenland, on the shores of Baffin Bay, Orpit will reveal itself in an exceptional environment. A jumble of fjords and islets, the rolling topography of this territory offers hiking possibilities for discovering the tundra, this unique ecosystem in the high latitudes. If conditions allow it, an outing in a zodiac dinghy will also let you explore this faraway land via the sea, getting as close as possible to the wildlife.

DAY 8: Kullorsuaq

Well beyond the Arctic Circle, in the majestic landscapes of Greenland's Northwest, you will find the village of Kullorsuaq, the last bastion of Greenland's traditional hunters. Here is where you will find Greenland's true character... Vast mineral expanses, sumptuous mountains, impressive glaciers and, above all, the local population which still lives off fishing and seal or bear hunting. Hospitality and respect for nature are essential elements in the daily lives of these men, who live an austere life. When we drop anchor in this remote part of the world, set off to discover these friendly people who are also talented craftsmen, deftly sewing the furs and skins of marine mammals. This will be a unique and authentic experience.

DAY 9: Melville Bay

Classed as a protected area since 1977, Melville Bay - called Qimusseriarsuaq in Greenlandic - is specially dedicated to the protection of belugas, narwhals, seals and polar bears. Throughout this part of Greenland, the ice sheet reaches the sea in the form of large glaciers several kilometres wide that calve icebergs whose tip can reach a height of 50 metres (164 feet). The coast is formed by the fronts of these glaciers, which are very difficult to approach due to the sea being covered in icebergs interconnected by brash ice. From aboard your ship, admire the beauty of these extraordinary landscapes and the spectacular sight of the icebergs and the edge of the ice sheet under the midnight sun.

DAY 10: Cape York

A few kilometres to the west of Savissivik, in Greenland, your ship will pass Cape York, a place that is brimming with history and marked by the conquest of the North Pole. Indeed, it is here, at the end of the 19th century, that the American explorer Robert Peary discovered fragments of one of the biggest meteorites ever found to this day. He had them sent back to the United States and later sold them to a New York museum, where they are still on display. Despite Robert Peary's disputed achievements and his sometimes controversial attitude towards the Inuit populations, a memorial was erected in his honour at Cape York. Constructed in the 1930s, the memorial still stands today.

DAY 11: Baffin Bay Exploration - Day 11 & 12

In the icy waters of Baffin Bay, you will sail into the heart of the scattered sea floe. You will be captivated by icebergs in dreamlike shapes as your ship takes you into the ice of the Far North. Everything comes in shades of white here and, if you watch closely, you may get a glimpse of the lord of this kingdom, the polar bear. This fascinating animal finds its food in the heart of the ice, so this is where you have more chances of spotting it. The polar light gives a shine to the ice floe that you sail along as you explore Baffin Bay, leaving you with memories of unforgettable moments.

DAY 13: Evighedsfjorden

Your ship glides slowly along the water towards the west coast of Greenland, to enter Evighedsfjorden, just a few kilometres south of Kangerlussuaq. Evighedsfjorden means "the fjord of Eternity", and for good reason: just when you think you've reached the end of this stretch of sea measuring over 100 kilometres in length, it seems to go on forever, as though to bring even more pleasure to those sailing in it. The spectacular scenery ranges from glaciers to tundra with an abundant flora, and jagged cliffs where numerous bird species have taken up residence. Take the time to observe the white-tailed eagles and the colonies of seagulls and black-legged kittiwakes flying overhead in the area.

SUSTAINABILITY

Being environmentally accountable is a crucial part of our organisation. Chimu is currently striving towards using less paper, taking several initiatives to do so and tracking our progress along the way. Our goal: A paperless organisation. For this reason, all information given to you will be sent electronically. We encourage those who choose to travel with us to support our aspirations and actions and ask that you reconsider printing out documentation. To view these documents, you can download them to your iPad or portable computer before and during your trip.

Chimu is passionate and dedicated to sustainability measures and understands the crucial part sustainability plays within the tourism industry.

We use local guides and office staff to both maximise local employment opportunities and minimise carbon footprint. Local guides also ensure you benefit from the intimate knowledge, passion and culture of the country you're visiting. Our guides are all highly qualified (most with university degrees) or equip with many years of experience and are paid above the standard wage. Whether it be our knowledgeable local guides, locally produced meals or the transport on tour, we do not use imported goods when local products are available. We aim to minimise our impact on the environment and give as much back as possible to the communities we work in.

While visiting the many national parks, heritage sites, museums and landmarks our travellers are encouraged to explore whilst remaining culturally aware and sensitive. We further encourage you to buy appropriate souvenirs and discourage the buying of anything wrongfully made or taken from the environment i.e. shells and endangered species products. Information on how you can be environmentally conscious, and travel responsibly will be made available in our Travellers Guides and provided during your travels by guides and staff.

For more information on our sustainability policies, including how we are striving towards being a paperless organisation, click [HERE](#)
