

THE ARCTIC - THE FAR NORTH FROM SPITSBERGEN TO ICELAND | LE LYRIAL

INTRODUCTION

Travelling beyond the Arctic Circle, embark on a 14-day journey from Spitsbergen to Iceland, exploring the Far North's islands. Starting from Longyearbyen, you'll sail past glaciers and snow-covered peaks, observing Arctic fulmars, terns, kittiwakes, and guillemots. Watch for bearded seals on ice floes and scan the horizon for polar bears.

The voyage continues to Jan Mayen Island, an isolated volcanic island with large bird colonies, and then to the east coast of Greenland. Here, you'll visit the Inuit community in Ittoqqortoormiit and explore Scoresby Sound's vast fjord network, home to musk oxen, Arctic wolves, and migratory birds. Finally, sail to Iceland, discovering the wild beauty and legends of Isafjörður and the Westfjords. Throughout, a team of naturalists will enhance your experience with wildlife sightings and insights into the region's fragile ecosystem.

Prices are correct at time of publishing (7 November 2024) but are subject to change at any time until the time of booking and terms and conditions apply. Please contact us for more information and enquire for details and availability.

THE ARCTIC - THE FAR NORTH FROM SPITSBERGEN TO ICELAND | LE LYRIAL

DAY 1: Fly Paris to Longyearbyen & Embark

Longyearbyen is the capital of the Norwegian Svalbard archipelago, located on Svalbard's main island, and is the northernmost territorial capital on the planet. With winter temperatures dropping to below 40°C, the landscapes of this mining town are simply breathtaking. The glaciers, the mountains stretching as far as the eye can see and the untouched nature, make you feel like you're in completely unexplored territory.

DAY 2: Ny-Alesund & North-West Region: Days 2-5

During your cruise, discover Ny-Ålesund, a former mining town that has been transformed into a scientific base. Founded in 1916, this small town was the departure point for many Arctic expeditions, including those of the famous explorer Roald Amundsen. Don't miss a visit to the museum and its famous post office, considered to be the most northerly in the world! A kingdom of contrasts and natural marvels dotted with islands and peninsulas, northwest Spitsbergen fascinates with its preserved beauty. On these pristine lands, infinity unveils itself, treating the eyes to beauty sculpted by nature and enhanced by the changing light. The fjords bathed by icy waters, the jagged mountains and the imposing glaciers stand majestically before you, like monumental sculptures. In these lands, where souls are filled with deep serenity, only the murmur of broken ice, bearing mysteries and legends, disturbs the calmness. Aboard our Zodiacs and in the company of naturalist-guides, get as close as possible to this unique fauna and discover this centre for scientific expedition departures. In the distance, majestic whales glide silently through the glacial waters, whereas seals, walrus and Arctic foxes add a playful touch of life. As Svalbard reindeer wander the vast expanses, Arctic terns liven up the polar sky with their gracious flight and polar bears, which you may be lucky enough to see, patrol magnificently along the icy shores.

DAY 6: At Sea: Days 6-7

During your journey at sea, make the most of the many services and activities on board. Treat yourself to a moment of relaxation in the spa or stay in shape in the fitness centre. Depending on the season, let yourself be tempted by the swimming pool or a spot of sunbathing. This journey without a port of call will also be an opportunity to enjoy the conferences or shows proposed on board, depending on the activities offered, or to do some shopping in the boutique or to meet the PONANT photographers in their dedicated space. As for lovers of the open sea, they will be able to visit the ship's upper deck to admire the spectacle of the waves and perhaps be lucky enough to observe marine species. A truly enchanted interlude, combining comfort, rest and entertainment.

DAY 8: Jan Mayen Island, Svalbard

The island of Jan Mayen, belonging to Norway, lies hidden off Greenland's coastlines, lost between the Arctic Ocean and the North Atlantic Ocean. This small piece of land is inhabited by only a handful of Norwegian meteorologists. Tongues of ice descend from its volcanic summit, which culminates at 2,227 metres and is covered with a thick glacial coat. These tongues join the sea, between ranges of black volcanic rocks at times tinged with red. If the sky is clement, you will have the chance to glimpse the summit, decked out in magnificent light. The visit of a small fin whale will perhaps enable you to complete this memorable picture.

DAY 9: Ittoqqortoormiit region & Scoresby Sound
Sound: Day 9-10

On the East coast of Greenland, in the Ittoqqortoormiit region, you will have the rare opportunity of immersing yourself in the heart of isolated scenery and exploring the beauty of its landscapes. The high alpine mountains stand out in the sky, revealing dark rock edges. The region is home to the longest fjord system in the world, Scoresby Sound. On the edge of the fjord, the eponymous village is considered one of the most remote inhabited places in the world. The colourful houses, so typical of Greenland, dot the landscape with small red, yellow and blue patches that stand out against the surrounding arid landscape. Immersing yourself in this region will allow you to discover the ancestral way of life of the last hunters of the polar region. This will be a veritable deep-dive into the lives of the Arctic's inhabitants. Covering an area of 13,700 km² (5,290 mi²), Scoresby Sound is the largest and deepest fjord system in the world. Named after the explorer and whale hunter William Scoresby, who mapped the region in 1822, it opens onto the Greenland Sea to the north of the Blossville Coast. This wild and desert region offers untouched panoramas of infinite beauty, with high snow-capped peaks rising tall alongside icebergs immersed in clear, blue-tinged waters. Discovering these stunning places in the wake of great explorers like Captain Charcot, who was deeply attached to the land of the Inuit, inspires a profound reverence.

A truly enchanted interlude, combining comfort, rest and entertainment.

THE ARCTIC - THE FAR NORTH FROM SPITSBERGEN TO ICELAND | LE LYRIAL

DAY 12: Isafjörður, Iceland

Your ship will take you to the heart of the fjords of North-West Iceland, a wild land of lost valleys and steep cliffs, where man struggles to survive. In this very isolated region we find the Isafjörður fjord, undoubtedly one of the most beautiful in the country, mainly for its relief, forged by many very ancient basaltic flows. The town of Isafjörður, which nestles at the back of its fjord, between imposing mountains, is a delightful little town that lives exclusively from fishing. The capital of the Western fjords, its old wooden houses bear witness to its past as a major fishing port.

DAY 13: West Fjords of Iceland

Today you will visit the Westfjords region of Iceland. Experience the region's wide-open fjords, fishing villages, and stunning landscapes.

DAY 14: Arrive Reykjavik & Disembark

Arrive early in the morning to Reykjavik and disembark at 08:00. Iceland's capital stretches along the edge of a vast bay in the west of the country. Perlan, the "Pearl of Reykjavík", a museum located on 'Oskjuhlíð hill, offers a panoramic view of the lush, green landscapes. A little further, one can easily spot the signpost showing the way to the evangelical Hallgrímskirkja church, and to the historical centre where one can stroll along the Skólavörðustígur and the Laugavegur, two lively streets with charming small shops. For some relaxation just outside of the city, visitors have the opportunity to visit the Reykjanes peninsula and its famous thermal lagoons of the Blue Lagoon. *Please note: Cruise itinerary is subject to change depending on weather conditions, ice conditions and other factors.
