DURATION
11 Days
LOCATIONS
Antarctic Peninsula, Weddell Sea & Antarctica

INTRODUCTION

Embark on an unforgettable journey over 11 days to explore the Antarctic Peninsula and the remote Weddell Sea. Navigate through dramatic polar landscapes of icebergs and vast ice shelves. This expedition offers a chance to observe wildlife, including seals, a diversity of different penguin colonies, whales and many other Antarctic favourites. This adventure promises zodiac cruises and informative presentations that allow you to fully immerse yourself in the stunning surroundings, providing an unparalleled experience in one of the world's last true wildernesses.

Please Note: For this departure Long Hikes are included in the cost of the trip, but subject to availability.

Long Hikes:

Long walks in Antarctica are designed for small groups of up to 24 passengers, accompanied by at least two expedition staff with experience in this terrain. These walks offer an immersive experience in the pristine polar landscape, requiring participants to be prepared for up to six hours of hiking on semi-rough, rocky and snowy terrain with notable elevation changes. While the pace will be steady and manageable, the conditions can be demanding and change quickly. A good level of fitness and willingness to walk for extended periods are essential. The total duration will vary depending on site conditions and explore the untouched expanses of the Antarctic wilderness. For those who prefer not to join the long hikes, alternative activities or shore landings will be available during this time.

ITINERARY

ANTARCTICA - ANTARCTIC PENINSULA & WEDDELL SEA | HONDIUS

DAY 1: Arrive Ushuaia & Embarkation

Your voyage begins where the world drops off. Ushuaia, Argentina, reputed to be the southernmost city on the planet, is located on the far southern tip of South America. Starting in the afternoon, you embark from this small resort town on Tierra del Fuego, nicknamed “The End of the World,” and sail the mountain-fringed Beagle Channel for the remainder of the evening.

DAY 2: Crossing the Drake Passage - Day 2 & 3

Over the next two days on the Drake Passage, you enjoy some of the same experiences encountered by the great polar explorers who first charted these regions: cool salt breezes, rolling seas, maybe even a fin whale spouting up sea spray. After passing the Antarctic Convergence - Antarctica’s natural boundary, formed when north-flowing cold waters collide with warmer sub-Antarctic seas - you are in the circum-Antarctic upwelling zone. Not only does the marine life change, the avian life changes too. Wandering albatrosses, grey-headed albatrosses, black-browed albatrosses, light-mantled sooty albatrosses, cape pigeons, southern fulmars, Wilson’s storm petrels, blue petrels, and Antarctic petrels are a few of the birds you might see.

DAY 4: Exploring the Weddell Sea - Day 4 & 5

Today you enter the wondrous Weddell Sea, a relatively unvisited area in which we hope to carry out activities in Erebus and Terror Gulf. We may also visit such places such as Beak Island and Devil Island, which boast some stunning scenery as well as the pack ice for which the Weddell Sea is famous. As we continue to explore the area of Erebus and Terror Gulf, we look for new opportunities for landings. You may also visit Vega Island, experiencing the wilderness of Antarctica in its most remote places.

DAY 6: Orleans Strait and Gerlache Strait - Day 6 & 7

Now we sail down the western side of the Antarctic Peninsula, entering the Orleans Strait and the Gerlache Strait. Here we hope to see humpback and orca whales as we sail toward Mikkelsen Harbor for our afternoon activities. Sites you may visit include: Danco Island - Activities here may focus on the gentoo penguins nesting on the island, in addition to the Weddell and crabeater seals that can be found nearby. Neko Harbour - An epic landscape of mammoth glaciers and endless wind-carved snow, Neko Harbour offers opportunities for a Zodiac cruise and landing that afford the closest views of the surrounding alpine peaks. Paradise Bay - You may be able to take a Zodiac cruise in these sprawling, ice-flecked waters, where there's a good chance you'll encounter humpback and minke whales.

DAY 8: South Shetland Islands

The volcanic islands of the South Shetlands are windswept and often cloaked in mist, but they do offer subtle pleasures: There's a wide variety of flora (mosses, lichens, flowering grasses) and no small amount of fauna (gentoo penguins, chinstrap penguins, southern giant petrels). During our visit, we may visit Deception Island, where the ship can plunge through Neptune's Bellows and into the flooded caldera. Here you find an abandoned whaling station, and thousands of cape petrels - along with kelp gulls, brown and south polar skuas, and Antarctic terns. A good hike is a possibility in this fascinating and desolate volcanic landscape. As an alternative, you may be able to engage in activities near Half Moon Island. Here chinstrap penguins and Weddell seals often haul out onto the beach near Cámara Base, an Argentine scientific research station. Conditions on the Drake Passage determine the exact time of departure.

DAY 9: Crossing the Drake Passage - Day 9 & 10

Your return voyage is far from lonely. While crossing the Drake, you're again greeted by the vast array of seabirds remembered from the passage south. But they seem a little more familiar to you now, and you to them.

DAY 11: Disembark in Ushuaia

Every adventure, no matter how grand, must eventually come to an end. It's now time to disembark in Ushuaia, but with memories that will accompany you wherever your next adventure lies.
